

Report of the activities conducted in the month of October

PAPER CUTTING ACTIVITY- The paper-cutting activity was done for Pre-Nursery students in the class. In this activity, students cut the paper in different sizes with the help of scissors. They developed their scissoring skills with the help of this activity.

ICE CREAM CRAFT ACTIVITY- Involving the students in every activity is the best way to bring out the hidden talent of each child and to reinforce this 'Ice cream Craft Activity' was conducted for class Pre-Nursery wherein the students made their ice-creams using cotton, crayons, and decorative materials. This activity was thoroughly enjoyed by the students.

STORY SESSION - Storytelling is the favourite session for every toddler. “The Three Fishes” story was narrated to the students of Pre-Nursery by the teacher with creative gestures and facial expressions. It helped in improving the listening and imagination skills of the children.

OWN THE RIDE- Learning to classify modes of transportation allows the child to deepen their understanding of how transportation works, it also allows the child to expand their vocabulary and awakens the child's curiosity and motivation to deepen their knowledge about the transport vehicles around them. Nursery children enjoyed doing this activity by sorting different modes of transportation on their own.

SHAPES SORTING ACTIVITY-Learning about and recognizing basic shapes is so much fun and motivating when it is done hands-on. Keeping the same in mind, the Shape Sorting Activity was conducted for the children of the class Nursery. The activity provided an opportunity to the children to strengthen their solving skills, as well as develop hand and eye coordination.

WORD BUILDING ACTIVITY-Students of class Nursery participated in the Word Building Activity to build and step up their vocabulary skills. It was a hands-on activity for building basic words. This activity was not only fun, innovative, and interesting but also helped the children in reading.

THREAD PAINTING ACTIVITY- Students of Prep enjoyed the thread painting activity held on 11 October 2022. They used thread dipped in bright colors and created flowers on paper by pulling them. It was a great way to develop the fine motor skills of children.

HAND PRINTING ACTIVITY- The students of class Prep took active part in the Hand Printing Activity. Under the supervision of their teachers, the students dipped their hands in colorful paint and made beautiful flowers with it. This activity helped in improving the eye-hand coordination and fine motor skills of the children.

HEADGEAR MAKING ACTIVITY-The students of class Prep actively participated in making Deer headgears using paint and decorative items. This activity enhanced their creative skills. Later on, they wore the headgears enthusiastically and revelled in ecstasy.
