

REPORT OF THE ACTIVITIES CONDUCTED IN THE MONTH OF JULY

SUN MAKING ACTIVITY- This activity helped in the development of fine motor skills, which involve small muscles of the hand, fingers, and thumb. Pre-Nursery kids enjoyed putting circles and rectangular strips and making Sun. It also helped in eye-hand coordination.

TRAIN MAKING ACTIVITY- In this activity, children learned how to make a train from colourful squares. This activity helped them in the recognition of square shape and colours. The children participated enthusiastically and enjoyed it a lot.

PUZZLE ACTIVITY - Puzzles are very important in assisting children to develop problem-solving skills, cognitive skills, fine motor skills, eye-hand coordination, and self-esteem. The challenges involved in puzzle-solving give a sense of pride and self-esteem. Our little Rallians of class Pre-Nursery were provided different types of puzzles and they all tried to complete them in the best possible manner.

PAPER BOAT MAKING ACTIVITY-Nursery students enjoyed the paper boat-making activity with origami paper. Teachers taught students “How to make paper boats, & children also floated their paper boats on the water, under the guidance of their teachers. It also strengthened the hand-eye coordination and fine motor skills of the students.

HOPSCOTCH ACTIVITY- Nursery students enjoyed learning the Hopscotch Game. Each child tossed a dice inside the square grid with numbers 1-10 written on the floor and hopped down to the end and back. This game helped children to master body control, along with learning the numbers. They also revised counting.

PIZZA LETTER ACTIVITY- Using a keyword such as pizza while teaching the letter 'p' can help students better recall the sound in the future. This simple multisensory activity helped students differentiate between the initial /p/ sound and the final /p/ sound with their vocabulary words. Nursery students enjoyed this activity by pasting pictures related to the letter 'p'

EGG IN THE NET ACTIVITY- This activity was conducted in class Nursery to help the children in recognition of the letter 'n' and also make them aware of different vocabulary words related to the letter. Students had fun dropping eggs in the net and enjoyed the activity.

BUD PRINTING ACTIVITY- The idea of painting for kids inspires fun and creativity! Little Rallians of class Prep explored the unique technique of 'Bud Printing' and tried their little hands on a beautiful butterfly. This activity helped in enhancing the imagination and creativity of the children.

WORD BUILDING ACTIVITY-TO help the children learn phonic sounds and to improve their reading skills, a Word Building Activity was organized for the students of class Prep. They were provided with moveable blocks in which letters were printed on each side. Students manipulated the blocks in many ways to create words. This activity helped them to understand how letter symbols relate to letter sounds and developed word awareness skills.

SEED GERMINATION ACTIVITY-As part of the experiential learning, the Seed Germination activity was done in class Prep to demonstrate how plants develop from seeds. The students germinated the seed in a bowl under the guidance of their teacher and noticed the growth over a week. It allowed them to see up close how a seed grows and what are the things required for germination. Their happiness was at its peak when they saw a little plant coming out.
