

REPORT OF THE ACTIVITIES CONDUCTED IN THE MONTH OF NOVEMBER

KITE MAKING ACTIVITY- Kite Making activity was done for Pre-Nursery students in the class. In this activity, students folded the origami sheet in different folds and made a beautiful kite. Through this activity they developed their fine motor skills.

PHOTOFRAME MAKING ACTIVITY- Children did a photo frame-making activity using different colored paint and lady finger. In this activity, they dipped ladyfinger in different colored paint and imprinted it on the frame. It is a fun way to learn impression painting for kids.

NUMBER COUNTING ACTIVITY- The number-counting activity is a fun way of learning and understanding numbers. In this activity, students identified the number and placed sticks according to it. It helped in improving their number recognition and understanding the value of numbers.

HAND PRINT ACTIVITY- Hand painting is a great way for children to explore, learn and develop through sensory play. Under the supervision of their teacher, Pre-Nursery students dipped their hands in yellow paint and imprinted their palms on sheets to make chicks. They enjoyed the activity very much.

TULIP ACTIVITY- Children of class Nursery made colorful Tulip flowers with paper folding. They took the color paper of their choice and folded it carefully to make a tulip flower in just four simple steps. They also made leaves using thumb printing. This activity helped them to enhance their eye-hand coordination, their creativity, and imagination.

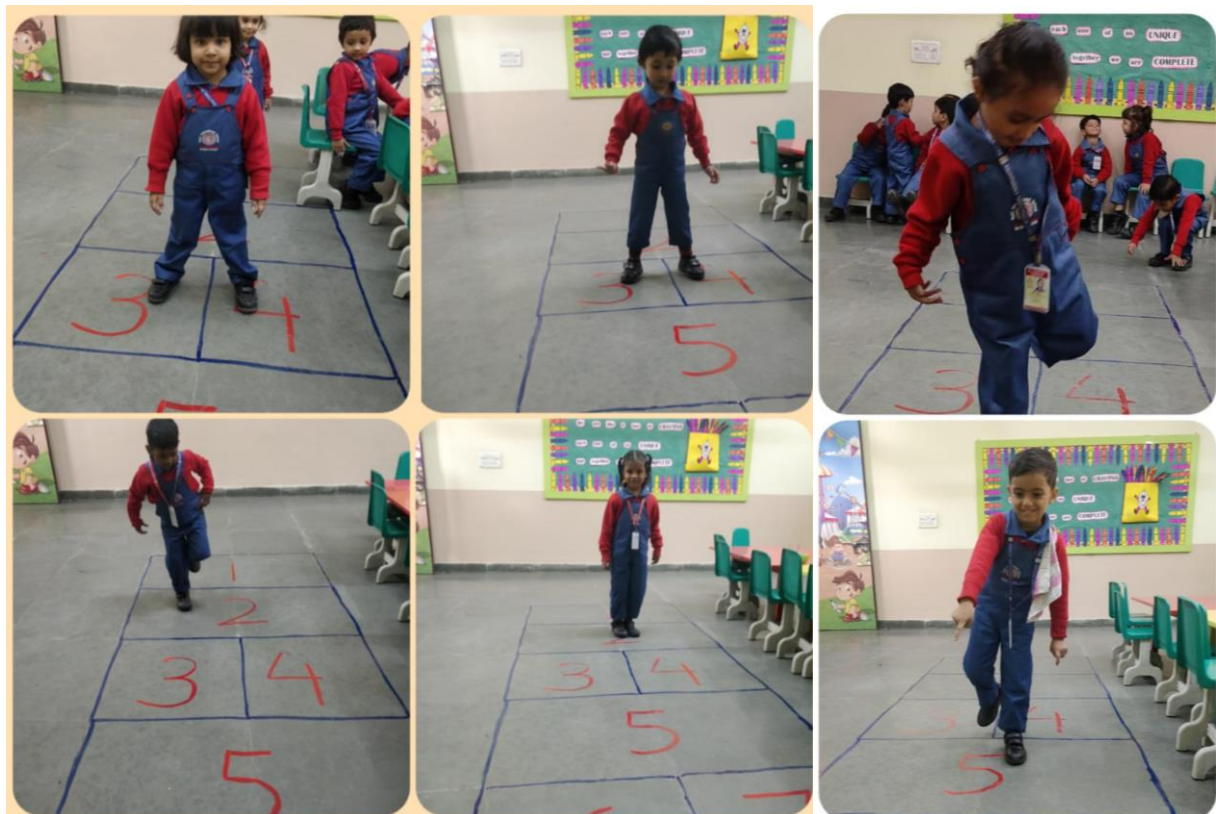

SORTING OF WINTER FRUITS- Food that is in season tastes the best! To make the Nursery students aware of winter fruits 'Fruit Sorting Activity' was done in class. Children were shown different fruits and the teachers explained about the fruits found in the winter season. Children enjoyed sorting fruits according to their colour and season.

CRAYON SHAVING ACTIVITY- Our little artists of class Nursery did an involving and creative crayon shaving activity in their classes. They had been collecting shavings for quite a few days. They filled winter fruits with vibrant-coloured shavings. They thoroughly enjoyed the activity.

HOPSCOTCH ACTIVITY- Students of class Nursery played hopscotch in their classes. Through this activity, children were able to recognize numbers more quickly. Such games help in developing gross motor skills, balance, and cognitive skills among the children.

LEAF PRINTING ACTIVITY-Children of class Prep enthusiastically learnt the art of using leaves to print patterns. Children dipped the leaf in the paint and placed the leaves on the paper, pressed firmly, and transferred the paint from the leaf to the paper. The children were amazed and delighted to see the beautiful tree made by them.

ADDITION ACTIVITY-This hands-on addition activity is a great math center idea for students. In this activity, Prep students did bud printing as per the number on cutouts of ladybugs and added them. Through this activity, children built a strong understanding of addition.

TRAFFIC LIGHT MAKING ACTIVITY- To make the children aware of the different traffic lights and traffic signals a Traffic Light Making Activity was conducted for the students of class Prep. It was a fun-filled experience for them. They enjoyed making traffic lights with the help of bottle caps and red, green, and yellow colors.

SORTING ACTIVITY- This activity was conducted for the students of Prep. The teachers explained the difference between living and non-living things and then the children did sorting of the cutouts of living and nonliving things. Through this activity, the children were able to identify living & non-living things and their characteristics.

DRAWING ACTIVITY To explore the creative potential in the young minds of our children, a drawing activity was conducted with the theme “Means of Transport”. The children showcased their creative skills in drawing and coloring and made different means of transport. It was an enjoyable activity that spread a smile on the faces of the children.
