

REPORT OF THE ACTIVITIES CONDUCTED IN THE MONTH OF NOVEMBER

Role Play Activity- Nursery children enjoyed learning about various community helpers through the role-play activity. Students dressed up as various community helpers enacted their roles with props like a stethoscope, hammer, board, weighing machine etc. The value of 'Respect for all Helpers' was inculcated in them by making them aware that all jobs are important and worthy of respect.

Feed the Jaguar Activity- In this activity, Nursery students picked up the correct pictures having a 'j' sound and put them in the jaguar's mouth. Through this activity, students learned more vocabulary words with the letter and it also helped in improving their eye-hand coordination.

Traffic Light Activity- Learning by doing is the best way of gaining knowledge about anything. Traffic light activity was done in Prep class to give students knowledge about the working of a traffic light and traffic rules. The little ones listened to their teachers and joined in the activity joyfully.

Trash Sorting Activity- To make the Prep students aware of the importance of recycling and waste segregation 'Trash Sorting Activity' was conducted. In this activity, students collected dry and wet waste and picked the dustbins according to it. They collected dry waste in the blue dustbin and wet waste in the green dustbin. It was a day full of knowledge and fun.

Thanksgiving Day - To express gratitude towards our community helpers, students of the class Nursery made beautiful cards and distributed them to all the housekeeping staff, drivers and security. It was a pleasant and enriching experience for them as they learned the importance of thanking people and things, they are grateful for.

Leaf Printing Activity - A Leaf Printing activity was conducted for the students of class Prep. They used poster colors and leaves of different sizes, dipped them in the paint, placed the leaves on the paper, pressed firmly and transferred the paint from the leaf to the paper. Children were amazed and delighted by their priceless pieces of art.

Nest Making Activity- By pasting dry leaves, Pre-Nursery students made a beautiful nest. This activity helped them enhance their observational and fine motor skills. It was a joy to see the little hands, busy at work creating and admiring their very own bird nests.

Hula Hoop Activity- Physical Development plays a crucial part in the holistic development of a child. Keeping this in mind, various activities were planned for Pre-Nursery students with hula-hoop as the main prop. In the Spaceship activity, they had to use a hula hoop as a spaceship and move in the given area without hitting another child. Races were also conducted with hula hoops, which helped them learn various skills such as team building, cooperation and eye-hand coordination.

Tearing and Pasting Activity Tearing and pasting is an innovative activity which helps in the development of motor skills. It improves hand strength and endurance in the small muscles. A Tearing and Pasting Activity was conducted in Pre-Nursery class in which children tore red paper into small pieces and pasted them into the picture. All the children enthusiastically took part in the activity.

Flower Making Activity- Pre-Nursery students participated in a Flower-Making Activity where they created exquisite paper flowers. Each student participated in the activity with great enthusiasm and inventiveness. The activity was indeed thrilling and enjoyable.
